INTERNSHIP EXPERIENCE

Data Analytics Intern

InAmigos

07/2026 – 07/2026 | Remote

- Engaged in a focused data analytics project, applying theoretical knowledge to real-world scenarios.
- Utilized data analysis techniques to extract insights and support decision-making processes.
- Collaborated remotely with team members, demonstrating effective communication and project management skills.

PROJECTS

NGO AI Insights: Empowering Social Impact

<https://ngo-ai-insights.oneapp.dev/>

Enhanced an interactive web platform showcasing practical AI strategies for NGOs, focusing on personalized engagement, predictive fundraising, AI chatbots, content optimization, and impact analytics. Visualized sample impact metrics to demonstrate AI's potential in amplifying social impact.

- Technologies:** AI, Data Analytics, Web Development (HTML, CSS, JavaScript, Chart.js)
- Impact:** Provided a clear, data-driven resource for NGOs to understand and adopt AI, potentially enhancing operational efficiency and outreach.

Volunteer India 2025: Opportunity Aggregator

<https://volunteer-india-2025.oneapp.dev/>

Created a platform to discover and aggregate meaningful volunteer and internship opportunities across India. Features include search functionality and categorization by remote/offline options, connecting aspiring volunteers with various social impact initiatives.

- Technologies:** Web Development (HTML, CSS, JavaScript)
- Impact:** Facilitated easier access to volunteer opportunities, promoting social engagement and community development.

AI in Education for Social Impact

<https://ai-edu-social-impact.oneapp.dev/>

Planned a visual digest and report on the integration of AI in education for social impact, highlighting adoption trends, personalized learning paths, intelligent tutoring, and ethical considerations. Presented key statistics and sources from leading institutions like Stanford HAI and UNESCO.

- Technologies:** AI, Data Visualization, Research, Web Development
- Impact:** Provided a comprehensive overview of AI's role in education, emphasizing its potential to narrow educational disparities and foster equitable learning environments.

Indian NGO Research Dashboard

<https://ngoresearch-hnxdcgfn.manus.space/>

Developed an interactive dashboard to research and visualize the social impact of 10 leading Indian NGOs across diverse sectors such as education, healthcare, and women empowerment. Featured key metrics like lives impacted and sectors covered, providing insights into their initiatives.

PROFESSIONAL SUMMARY

Third-year IT Engineering student at Mumbai University with a growing interest in data analytics and AI. Comfortable with Python, Java, and SQL fundamentals, and currently building practical experience in data cleaning, reporting, and visualization through coursework, certifications, and hands-on projects. Looking for an entry-level role or internship to learn from experienced teams and develop stronger data analytics skills.

EDUCATION

Bachelor of Engineering in Information Technology

[Yadavrao Tasgaonkar Institute of Technology and Engineering, Mumbai University](#)

- Current Semester: 7th

Higher Secondary Certificate (HSC)

[Maharashtra Board](#)

Secondary School Certificate (SSC)

[Maharashtra Board](#)

CERTIFICATIONS

- TCS iON Career Edge – Young Professional (Aug 2025)
- Data Analytics Job Simulation – Deloitte (Jul 2025)
- Introduction to Data Analytics – Simplilearn (Jul 2025)
- Introduction to Cybersecurity – Cisco (Jul 2025)
- Google Analytics Certification

TECHNICAL SKILLS

Programming Languages: Python (Pandas, NumPy), Java, C, C++, JavaScript, SQL (MySQL, PostgreSQL concepts)

Data Analysis & Visualization: MS Excel, Data Cleaning, Data Preprocessing, Basic Reporting, Google Analytics (certified), currently learning Power BI & Tableau

Tools & Platforms: Git, GitHub, VS Code, Canva, Figma

AI Tools: ChatGPT, Gemini, Claude, Grok, Manus AI

- **Technologies:** Data Visualization, Dashboarding, Web Development
 - **Impact:** Enhanced transparency and accessibility of NGO impact data, enabling better understanding and support for social change initiatives.
-

University Management System

<https://github.com/JayPatel0908/University-management-system>

Expanded a comprehensive University Management System to streamline administrative processes, including student registration, course enrollment, and grade management. Created and enforced a relational database using SQL for data integrity and efficient retrieval.

- **Technologies:** Java, SQL
 - **Impact:** Improved data organization and accessibility for university staff, reducing manual processing time for student records.
-

Café Order/Billing System

<https://github.com/JayPatel0908/Cafe-Managment-system>

Created an automated Café Order and Billing System using Python, developed to manage customer orders, calculate bills, and track inventory. Applied features for menu management, order customization, and transaction processing.

- **Technologies:** Python
 - **Impact:** Streamlined the ordering and billing process, improving speed and accuracy of transaction records.
-

Quiz Application

<https://github.com/JayPatel0908/Quiz-Application>

Improved an interactive Quiz Application featuring multiple-choice questions, score tracking, and a user-friendly interface. Focused on object-oriented programming principles to create a modular and scalable application.

- **Technologies:** Java
 - **Impact:** Demonstrated strong Java programming and logical problem-solving skills.
-

2048 Game

<https://github.com/JayPatel0908/2048-Game>

Executed the classic 2048 puzzle game using Python, showcasing proficiency in algorithm design and game development. Enhanced game logic, user input handling, and a graphical interface.

- **Technologies:** Python
- **Impact:** Reinforced Python programming and problem-solving abilities.
